22MILES
DIGITAL SIGNAGE & WAYFINDING

22Miles, the industry's most versatile, scalable, and user-friendly digital signage software is seamlessly integrated with MediaVue's Windows 10 platform. This seamless integration is the result of the close collaboration between MediaVue and 22Miles, with the goal of providing customers with a powerful yet easy-to-use digital signage experience.

With 22Miles software pre-installed, there is no need for additional on-site installation. This integrated approach ensures a streamlined setup process and reduces deployment time. By leveraging the power of MediaVue's integrated OS, customers can easily harness the full capabilities of 22Miles, including hundreds of professionally designed templates and a host of native integrations with external data sources. Ideal for digital signage and room booking, managing content has never been easier, and the output is nothing short of stunning with unmatched reliability.

Streamlined installation and configuration through MediaVue OS and Active Network Manager
